Getting Started

📱 First Contact with 🤖 Lead Finder

When you first message the Lead Finder bot, you'll receive a welcome message that initiates the setup process.

Screenshot: Welcome Message

Initial welcome message with language selection options

✓ What to do next:

Simply reply with **1**, **2**, or **3** to select your preferred language and continue to authentication.

🌐 Language Selection

💬 Supported Languages

🤖 Lead Finder supports three languages with full translation of all features and messages:

US

English

FR

Français

MA

العربية

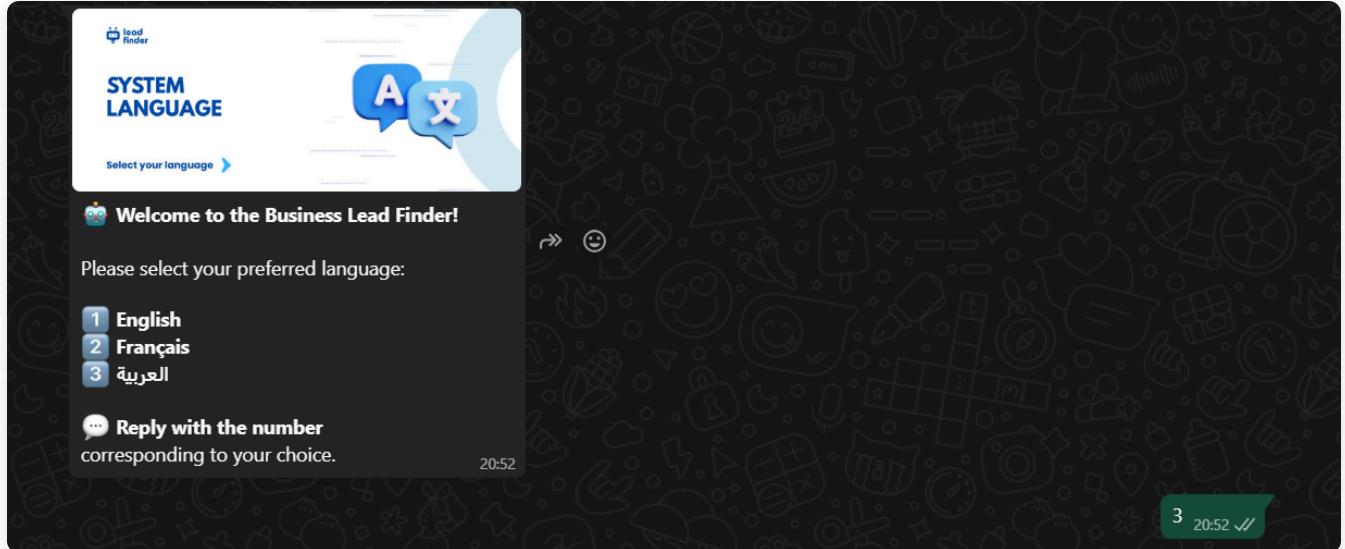

Number	Language	Code	Example Message
1	English	en	"Welcome to Lead Finder!"
2	Français	fr	"Bienvenue dans Lead Finder!"
3	العربية	ar	"مرحباً بك في Lead Finder!"

⌚ Language Selection Process

◎ Step-by-Step Process

- 1 Receive welcome message with language options
- 2 Reply with number (1, 2, or 3)
- 3 Language is saved to your profile permanently
- 4 All future messages will be in your selected language

Screenshot: Language Selection

Language selection interface in action

⚙️ Changing Language Later

You can change your language anytime from the main menu by selecting option **3** (🌐 CHANGE LANGUAGE).

💡 Language Features

- **Persistent:** Your language choice is saved permanently
- **Immediate:** All messages switch to new language instantly
- **Complete:** All bot features work in your selected language
- **Reversible:** You can change language anytime

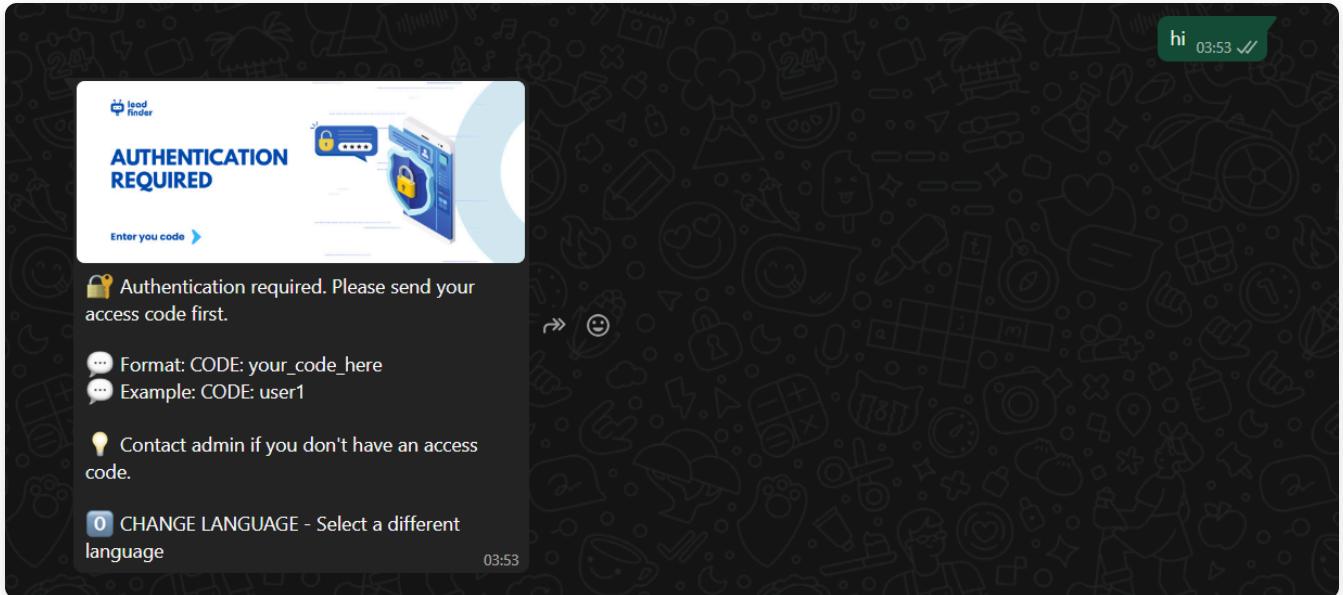

Authentication

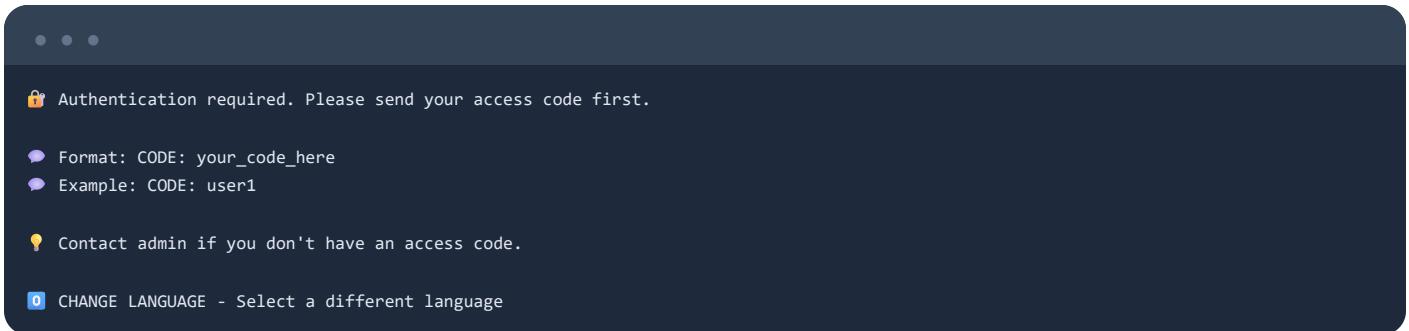

🔑 Access Code System

After selecting your language, you'll need to authenticate with a valid access code provided by the administrator.

Screenshot: Authentication Screen

Authentication prompt asking for access code

✓ Authentication Process

🔑 How to Authenticate

- 1 Get your access code from the administrator
- 2 Send your code in the format: CODE: your_code_here
- 3 Wait for verification and access confirmation
- 4 Proceed to the main menu upon successful authentication

Secure Access

Only users with valid codes can use  Lead Finder

Access code

Your code determines which AI services you get access to

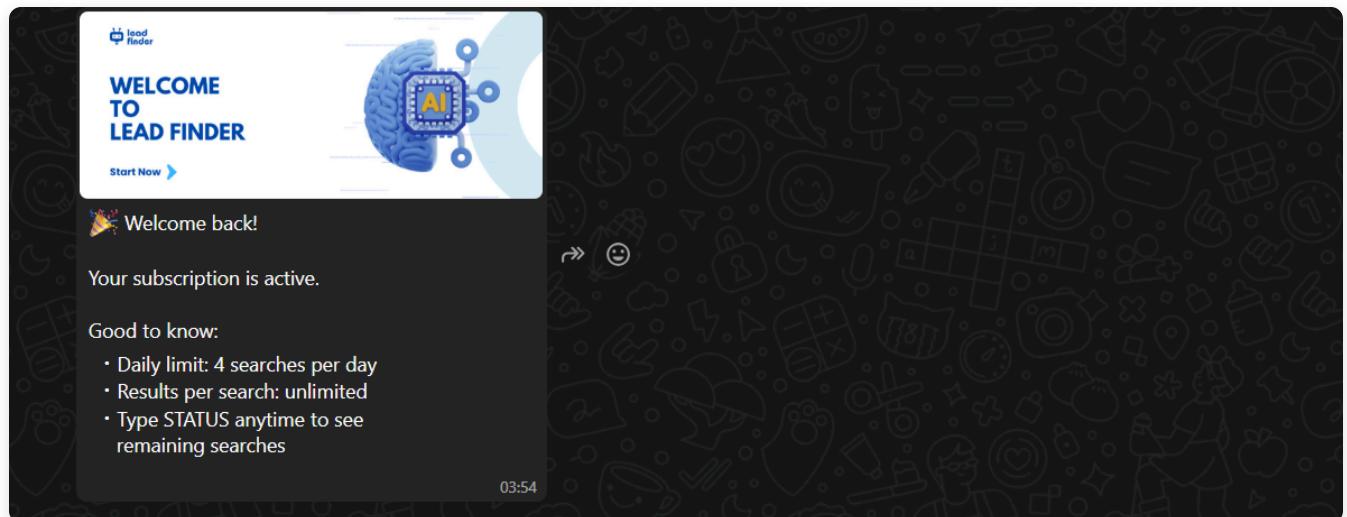

Daily Limits

Your code determines your daily lead generation limits

Session Persistence

Your authentication is saved for future sessions

Screenshot: Successful Authentication

Successful login confirmation and main menu access

Invalid Code Handling

If you enter an invalid access code, you'll receive an error message:

⚠ Invalid Access Code

✗ Invalid access code. Please contact admin for a valid code.

✖ Troubleshooting Steps

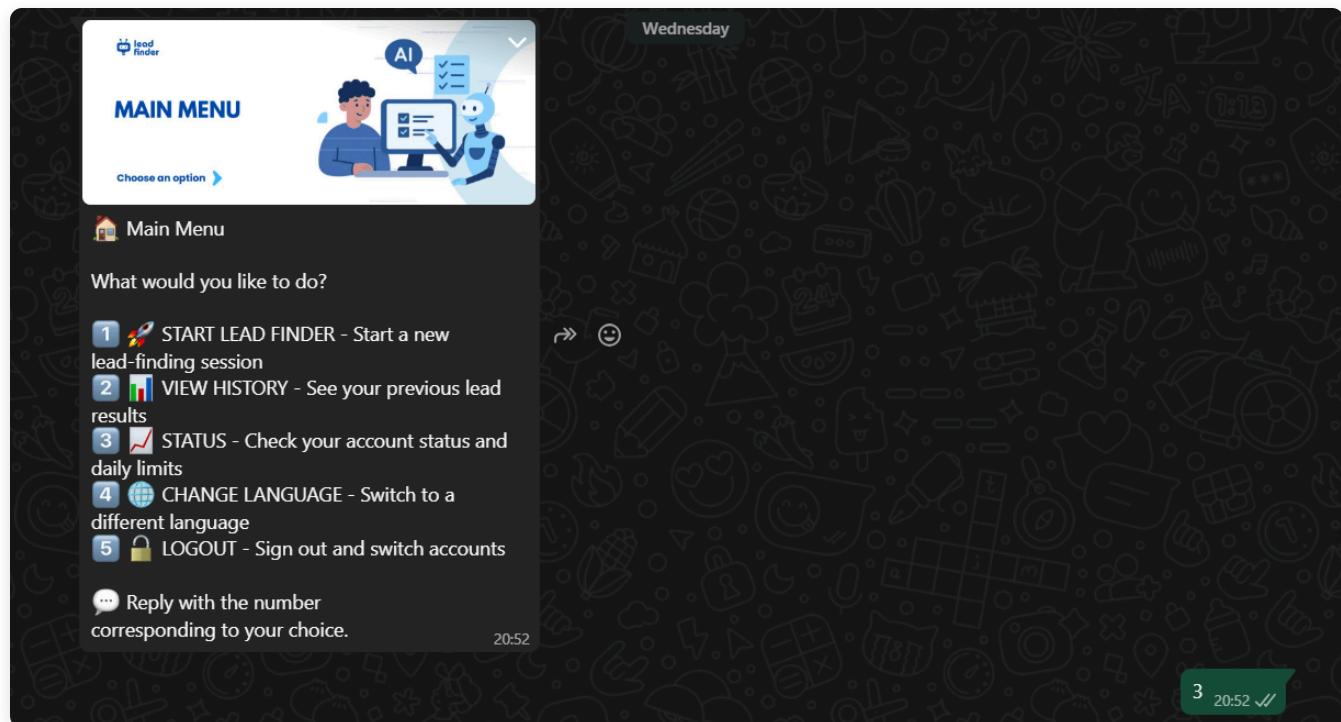

- Double-check your code spelling and format
- Contact the administrator for a valid code
- Use option **0** to change language if needed

🏠 Main Menu

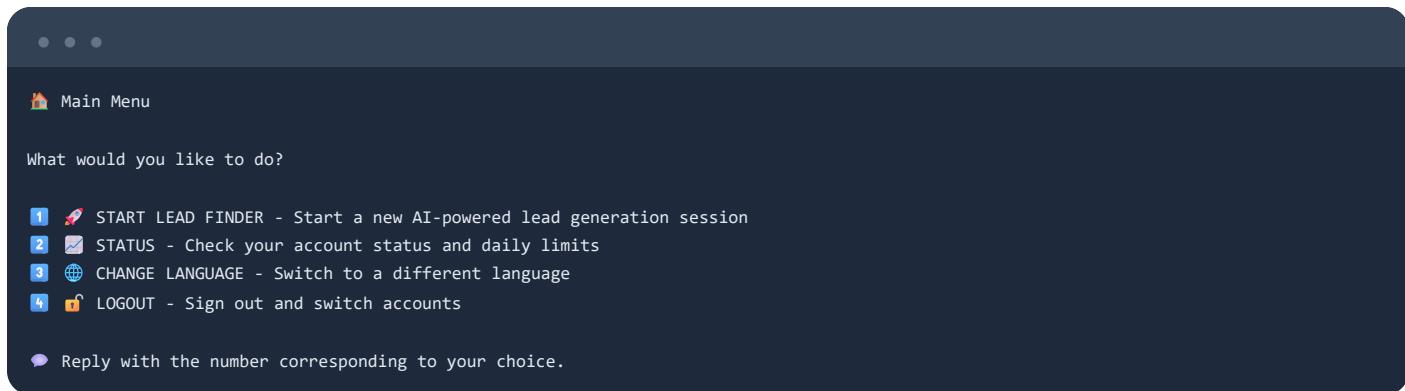

grid Navigation Hub

After successful authentication, you'll see the main menu - your central hub for all 🤖 Lead Finder functions:

Screenshot: Main Menu Interface

Main menu with all four options clearly visible

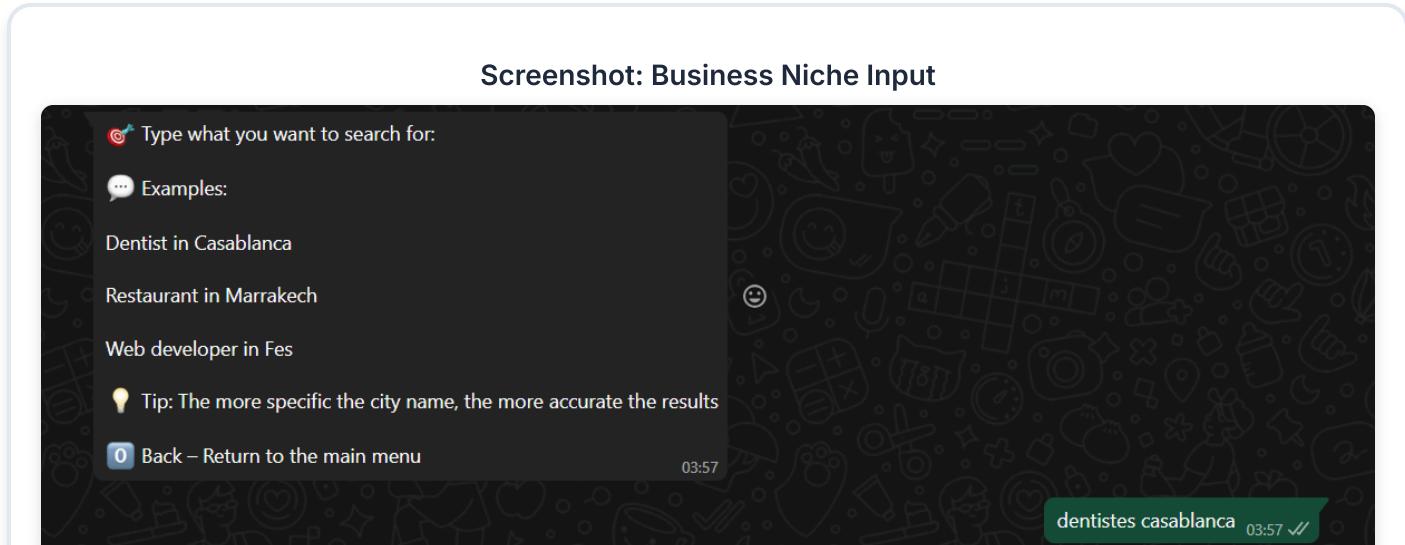

⌚ Menu Options Overview

Option	Function	Description
1	🚀 START LEAD FINDER	Begins the complete AI-powered lead generation process
2	📊 STATUS	Shows account info and daily usage limits
3	🌐 CHANGE LANGUAGE	Switch to a different interface language
4	🔑 LOGOUT	Sign out and switch to a different account

🔍 AI-Powered Lead Finding Process

⌚ Step 1: Enter Your Business Niche

When you select "START LEAD FINDER", you'll be asked to specify your target business niche:

Niche input prompt with examples

🎯 Enter the business niche you want to find leads for:

- 📍 Examples:
 - "restaurant casablanca"
 - "dentist rabat"
 - "web developer marrakech"
 - "real estate agent fes"

📍 Reply with your niche description.

★ Best Practices for Niche Selection

- **Be specific:** Include location and business type
- **Use keywords:** Think about what customers would search for
- **Include location:** Add city or region for better targeting

✓ Good Examples

"restaurant casablanca"
"dentist rabat"
"web developer marrakech"

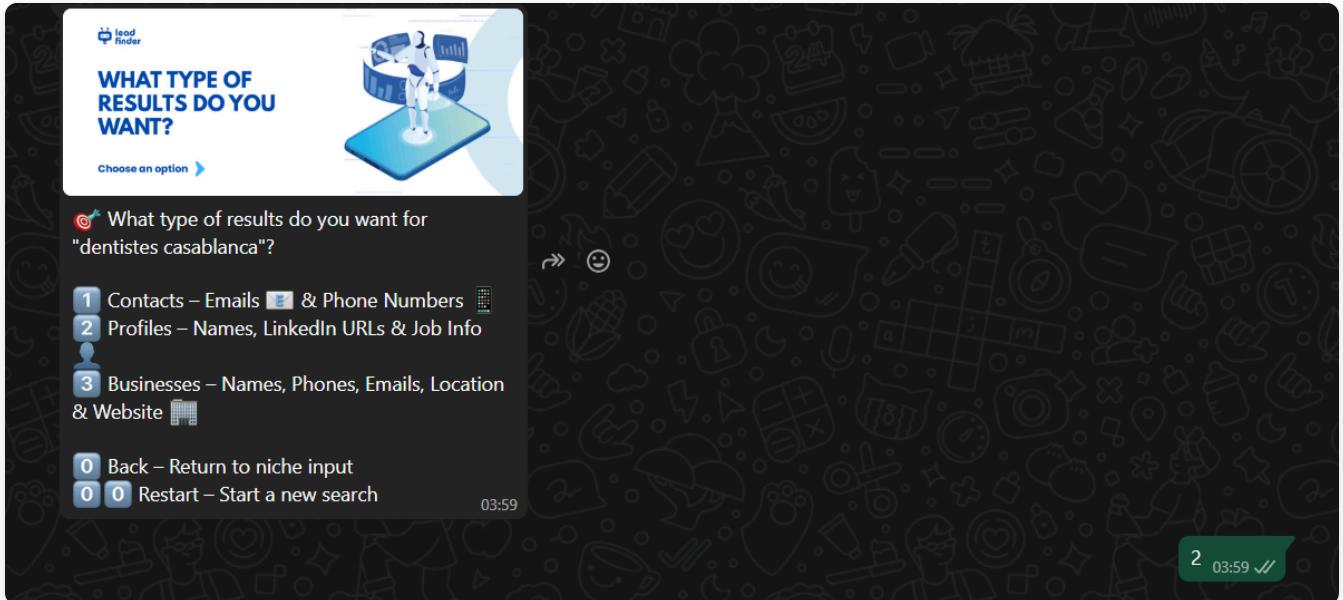

✗ Poor Examples

"food"
"doctor"
"technology"

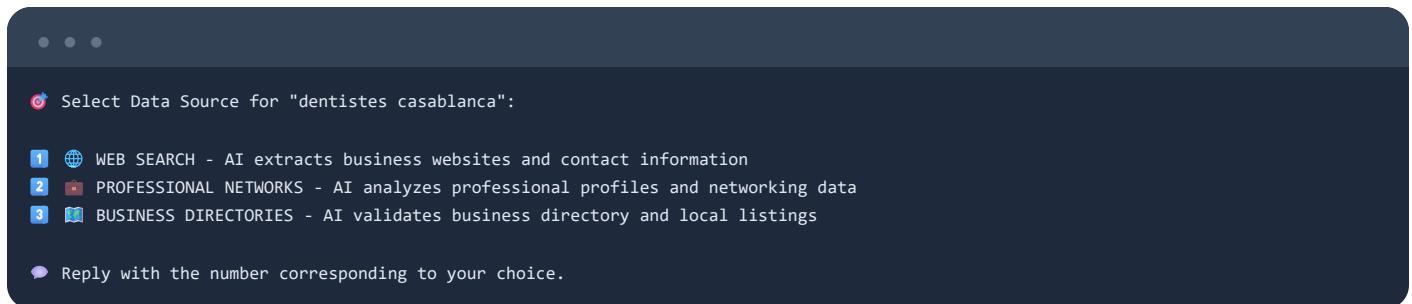

↴ Step 2: Select Data Source

After entering your niche, choose from three powerful AI-enhanced data sources:

Screenshot: Data Source Selection

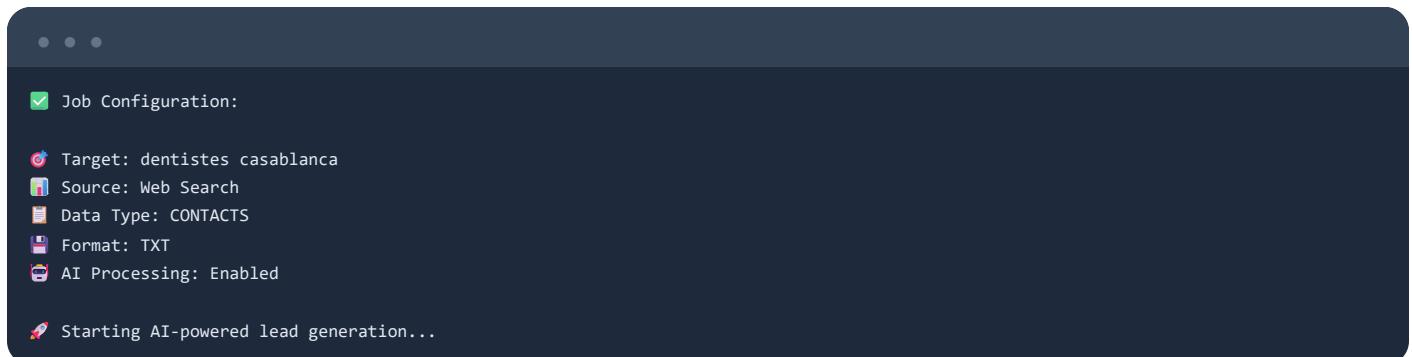

Data source selection menu with three options

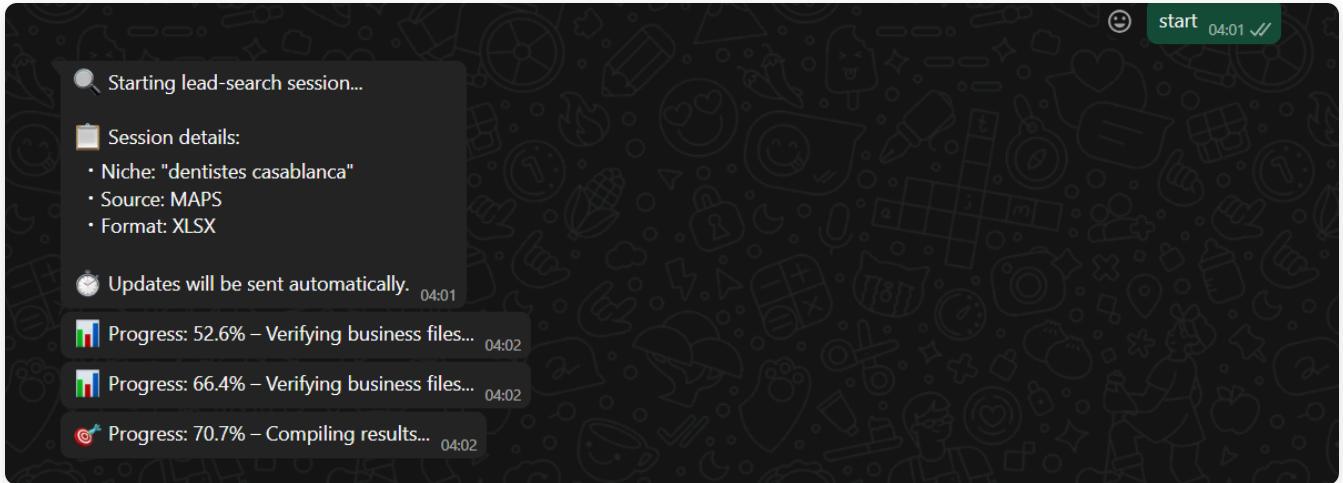

✓ Step 3: Job Confirmation & AI Processing

Before starting, you'll see a confirmation of your configuration:

Screenshot: AI Processing in Progress

AI progress updates and STOP option during execution

During AI Processing

Lead Finder will show AI progress updates and you can stop the job anytime by sending "STOP" to get partial results.

AI-Enhanced Data Sources

Web Search with AI

What AI finds and validates:

- Business websites and contact pages
- AI-extracted and validated email addresses
- AI-verified phone numbers and contact information
- Company information and services analysis

Best for:

- General business contact information
- Website-based businesses
- Local service providers

Output format: Text file (.txt) with AI-validated emails and phone numbers

Professional Networks with AI Analysis

What AI analyzes and extracts:

- Professional profiles and networking data
- AI-analyzed full names and professional bios
- Company connections and job titles validation
- Professional relationship mapping

Best for:

- B2B lead generation
- Professional networking
- Finding decision-makers

Output format: Excel file (.xlsx) with AI-analyzed profile data

Business Directories with AI Validation

What AI validates and processes:

- Business directory listings validation
- AI-verified local business information
- Reviews and ratings analysis
- Location and contact data verification

Best for:

- Local business discovery
- Location-based services
- Regional market research

Output format: Excel file (.xlsx) with AI-validated business data

STOP Functionality

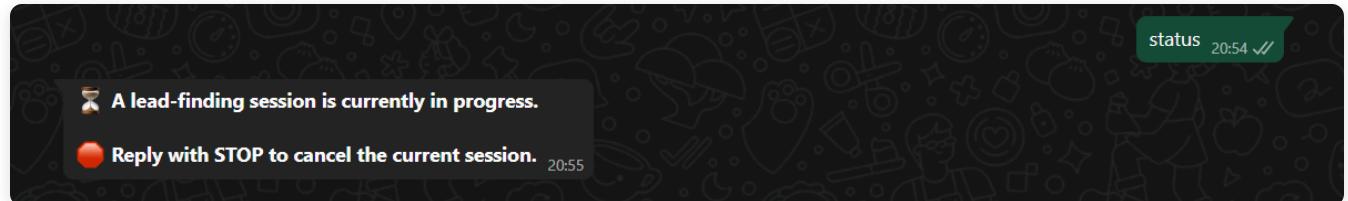

During AI Processing

While an AI lead generation job is running, you can stop it at any time to get partial results:

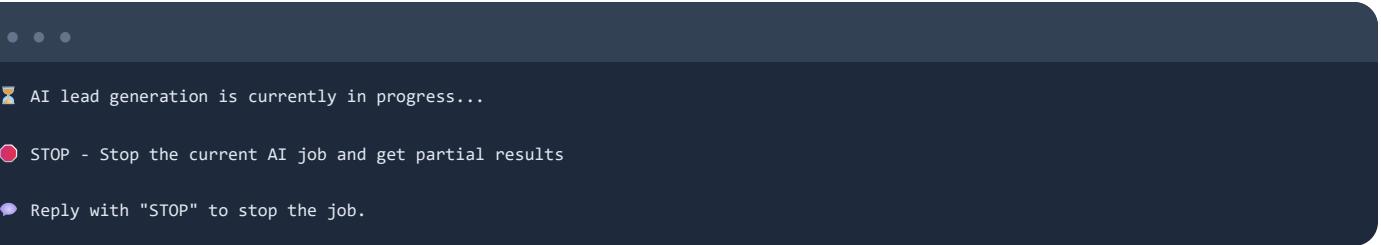

⌚ Important Timing Recommendation

⚠ WAIT AT LEAST 2 MINUTES: It's best to wait at least 2 minutes after starting before stopping to ensure the tool finds at least some early results. Stopping too early may result in no data.

Screenshot: AI Job in Progress with STOP Option

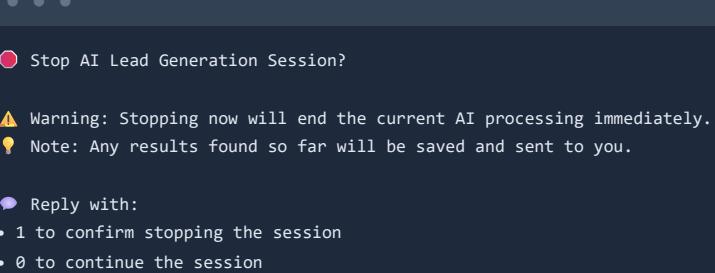

Active AI processing with STOP command available

⚠ STOP Confirmation Process

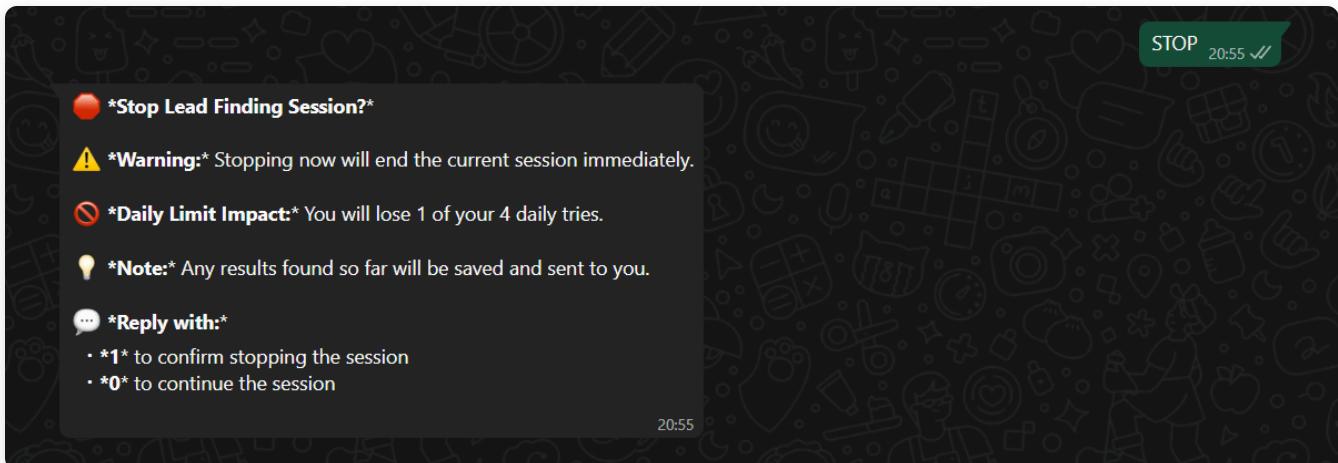

When you send "STOP", you'll get a confirmation dialog:

↻ STOP Process

- 1 Send "STOP" during AI job execution
- 2 Confirm with "1" to stop, or "0" to continue
- 3 If confirmed: AI job stops and partial results are sent
- 4 If no results: You'll get a "no results found" message

Screenshot: STOP Confirmation Dialog

Stop confirmation with options 1 and 0

✓ What Happens When You STOP

⌚ STOP Results

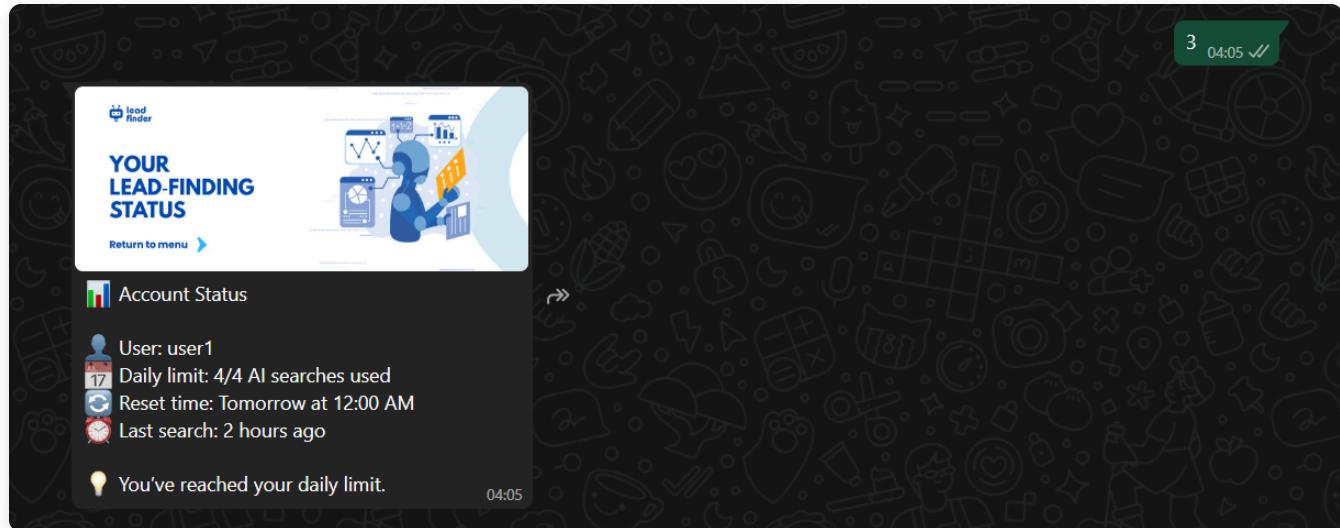

- AI job terminates immediately
- Partial results saved and sent to you
- File sent with whatever data was found and validated
- Return to main menu for new searches

>Status & Limits

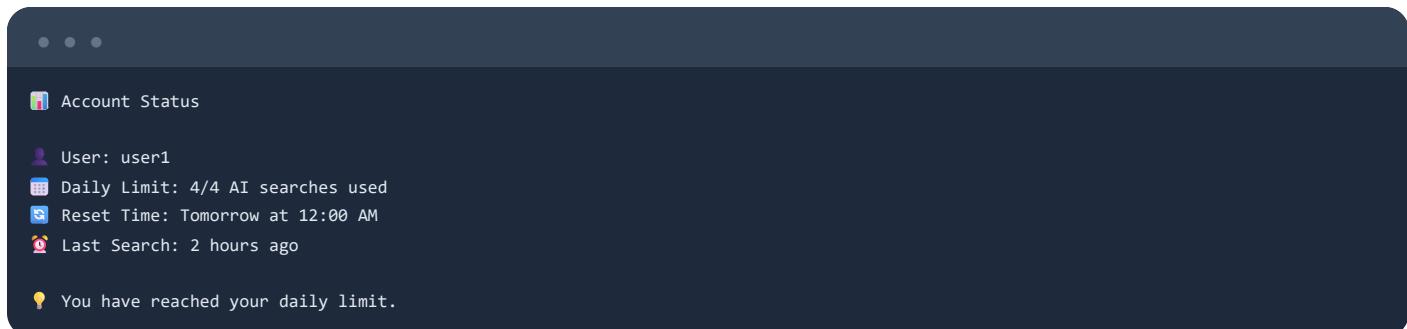

Check Your Account Status

Select option 2 ( STATUS) to see your account information and usage:

Screenshot: Account Status Screen

Account status with usage limits and reset time

Understanding Daily Limits

Account Type	Daily Limit	Reset Time	Status
Free Account	3 AI searches	✗	Active
Premium Account	4 daily AI searches	Midnight (12:00 AM)	Active

Limit Management Features

- **Real-time tracking:** Usage updates instantly
- **Daily reset:** Limits reset at midnight
- **Upgrade options:** Contact admin for higher limits

Limit Exceeded Handling

If you've reached your daily limit, you'll see this message:

Daily Limit Reached

 Daily limit reached!

 You have used 4/4 AI searches today.

 Your limit will reset tomorrow at 12:00 AM.

 Upgrade your account for higher limits.

Example Conversations

- 2 💼 STATUS
- 3 🌎 CHANGE LANGUAGE
- 4 ⚡ LOGOUT

1

20:53 ✓✓

🎯 Enter the business niche you want to find leads for:

- 💬 Examples:
 - "restaurant casablanca"
 - "dentist rabat"

💬 Reply with your niche description.

restaurant casablanca

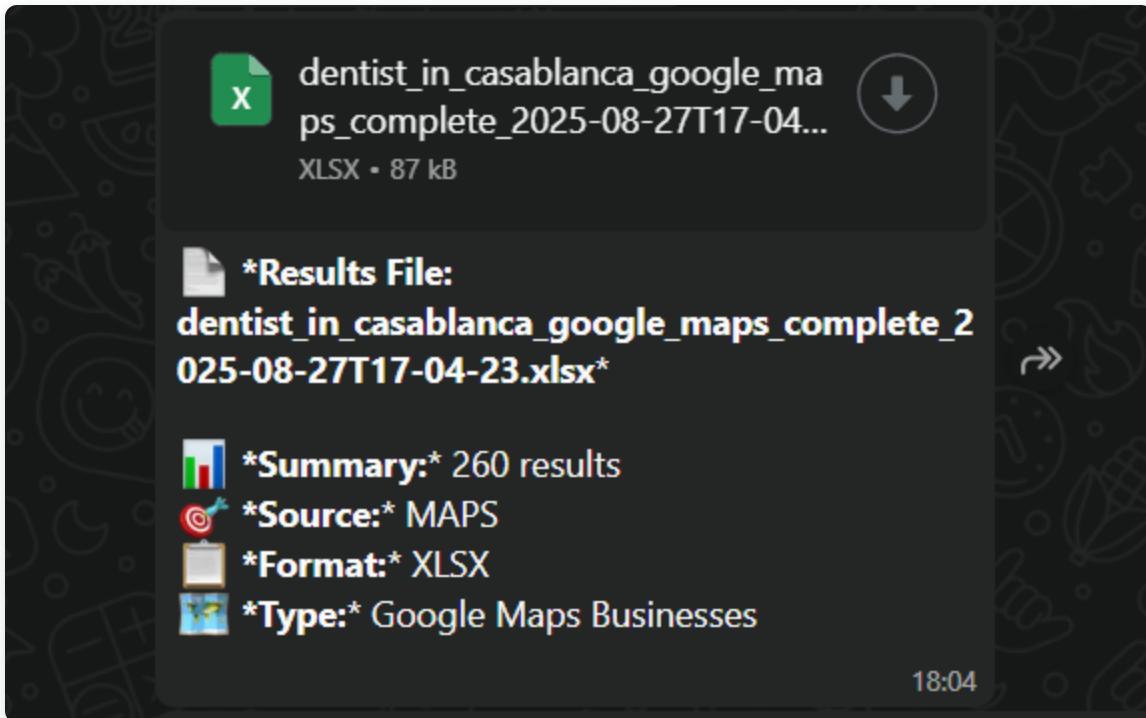

20:54 ✓✓

✅ AI Processing Complete!

- 📊 Summary: 45 validated results
- 🎯 Source: Web Search
- 📋 Format: TXT
- 🤖 AI Validation: Completed

📄 File ready for download

Screenshot: Results file

Extracting process completed and the user can download the results file

Troubleshooting

Common Issues and Solutions

⊗ 🚨 Lead Finder Not Responding

Solutions:

- Check internet connection
- Wait and try again
- Contact administrator

Invalid Access Code

Solutions:

- Check code format
- Verify spelling
- Request new code

Daily Limit Reached

Solutions:

- Wait for midnight reset
- Upgrade account
- Check STATUS for details

AI Job Stuck/Not Progressing

Solutions:

- Use STOP command
- Wait for AI updates
- Contact support

Error Messages Guide

Error Message	Meaning	Solution
 Invalid access code	Wrong or expired code	Check format, contact admin
 Daily limit reached	Used all daily AI searches	Wait for reset or upgrade
 Network error	Connection problem	Check internet, try again
 AI service unavailable	AI processing temporarily down	Wait and try again later
 Invalid selection	Wrong menu choice	Use correct number (1-4)
 No results found	AI found no leads for niche	Try different keywords

Getting Additional Help

Support Process

If you encounter issues not covered in this guide:

1. **Check error messages** - They often contain helpful information
2. **Try troubleshooting steps** from this guide
3. **Contact administrator** with:
 - Your access code
 - The exact error message
 - What you were trying to do
 - Screenshots if possible

Best Practices

For Better AI Results

Be Specific with Niches

-  **Good:** "restaurant casablanca"
 **Bad:** "food"

Include Location

-  **Good:** "dentist rabat"
 **Bad:** "dentist"

Use Relevant Keywords

-  **Good:** "web developer marrakech"
 **Bad:** "computer person"

Industry-Specific Terms

- Good:** "accounting firm agadir"
- Bad:** "money helper"

For Efficient Usage

Efficiency Tips

- **Plan your searches:** Think about your target audience before starting
- **Use specific locations:** AI works better with precise geographic targeting
- **Monitor your limits:** Check STATUS regularly to track usage
- **Save partial results:** Use STOP if you find enough leads early
- **Try different sources:** Each data source provides unique insights

Niche Selection Strategies

Local Businesses

Examples:

- "bakery sale"
- "pharmacy temara"
- "gym kenitra"

Professional Services

Examples:

- "lawyer casablanca"
- "architect rabat"
- "consultant fes"

Industry Specific

Examples:

- "textile manufacturer"
- "import export company"
- "construction company"

Tech & Digital

Examples:

- "software company rabat"
- "digital agency casablanca"
- "IT support marrakech"

Data Source Recommendations

Business Type	Recommended Source	Reason
Local Services	 Business Directories	Best for location-based businesses
B2B Companies	 Professional Networks	Professional networking data
Online Businesses	 Web Search	Website and contact information
Professionals	 Professional Networks	Individual professional profiles

Common Mistakes to Avoid

What NOT to Do

- **Too broad searches:** "business" or "company" - AI needs specificity
- **No location:** Always include city or region for better results
- **Ignoring limits:** Don't waste searches on poor keywords
- **Wrong data source:** Match your source to your target audience
- **Not using STOP:** Stop early if you have enough quality leads

Frequently Asked Questions

General Questions

How does Lead Finder work?

Lead Finder uses advanced AI to search, extract, and validate business data from multiple sources including web search engines, professional networks, and business directories. The AI ensures data quality and relevance to your specific niche.

② What makes the AI validation special?

Our AI doesn't just collect data - it validates email formats, verifies phone numbers, checks business legitimacy, and ensures all information is current and accurate before delivering results.

② Can I use Lead Finder for any business type?

Yes! Lead Finder works for any business niche - from local restaurants to international B2B companies. The AI adapts its search strategy based on your specific requirements.

\$ Pricing & Limits

② How many searches can I do per day?

Free accounts get 4 AI-powered searches per day. Premium accounts have higher limits. Contact your administrator for upgrade options.

② When do my limits reset?

Daily limits reset at midnight (12:00 AM) every day. You can check your current usage anytime using the STATUS menu option.

↗ Data & Results

② What file formats do I receive?

Web search results come as TXT files with emails and phone numbers. Professional networks and business directories results come as Excel (.xlsx) files with structured data.

② How accurate is the AI-validated data?

Our AI validation process ensures high accuracy by checking email formats, verifying phone number patterns, and cross-referencing business information across multiple sources.

② Can I get partial results if I stop early?

Yes! Use the STOP command during processing to get whatever results the AI has found and validated so far. This is useful if you find enough leads before the job completes.

🔧 Technical Support

② What if 🚗 Lead Finder stops responding?

Check your internet connection first, then wait a few minutes and try again. If the problem persists, contact your administrator with details about what you were doing when it stopped.

② Can I change my language after setup?

Yes! Use option 3 (🌐 CHANGE LANGUAGE) from the main menu anytime to switch between English, French, and Arabic.

② How do I get a new access code?

Contact your administrator to request a new access code. You'll need to provide your name and intended use case for the Lead Finder service.
